ISIC, Dublin, 3 – 6 September 2017

Accepted Poster Guidelines

You are asked to follow these guidelines when preparing your poster presentation:

All poster presenters should arrive at the Conference Registration desk on Sunday 3rd September 2017 from 1pm, in the O'Brien Centre for Science, UCD. You will receive instructions where your allotted poster place will be. The poster display will be open to all delegates attending the Conference on Sunday 3rd– Wednesday 6th September.
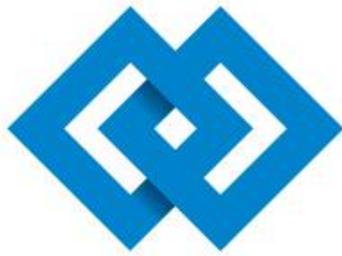

You will be required to stand by your poster during your allotted poster viewing session to answer any questions that delegates may have. Closer to the conference you will be informed on which day you will be presenting your poster.

The poster boards are made of soft blue cloth material and Velcro will be used to attach the poster to the board. We will supply the Velcro if needed.

Posters can only be removed from Tuesday 5th September from 17:00. The conference organiser is not responsible for any posters left behind. After the Conference they will be removed and recycled.

You are asked to follow the guidelines below when producing your poster for presentation at ISIC

- All posters are required to be **A0 size in Portrait Orientation** (0.84 x 1.19 m). Failure to follow this requirement will mean that the poster will not fit on the allotted board.

- Posters must be printed on paper. Please do not print on fabric as they will not adhere to the boards.

- Posters should be clear and easy to read. Type size should be sufficiently large to allow people to read from 2-3 metres away. (Minimum of 18pt font size for text and larger for titles). Do not reduce the text size in order to fit more information onto one poster.

- Although your poster can expand on the information provided in your abstract, try to avoid overload – too much information or a cluttered appearance detracts from the overall impact. Less is more!

- The simple use of colour can enhance a poster, but avoid the temptation towards using too many colours that distract from the content.

- Consider the use of suitable photographs, images, tables, charts and graphs. Keep logos discrete and to a minimum.

- The poster background should be plain to ensure legibility

- Before sending to print do not forget to proof read the poster yourself, and ask someone else to do the same, checking also for clarity.

If you have any questions please contact ISIC20@conferencepartners.ie
